

DIVISION OF WATER QUALITY
UTAH DEPARTMENT OF ENVIRONMENTAL QUALITY

PUBLIC NOTICE OF 2008 INTEGRATED REPORT and 2010 Draft INTEGRATED REPORT

To meet our obligations under the Clean Water Act, DWQ compiles all existing and readily available data, conducts beneficial use assessments, and summarizes the results every two years in the *Integrated Report* (IR). The IR consists of three parts: Part 1 describes the methods, Part 2 is a summary of the overall condition and significant water quality threats to the beneficial uses of Utah's waters (305(b) Report), and Part 3, the list of impaired waters that fail to meet water quality standards (303(d) list). The reports are available for public comment through January 14, 2011. Copies can be viewed at the offices of the Division of Water Quality, 195 North 1950 West, Salt Lake City, UT or on the web at <http://www.waterquality.utah.gov/PublicNotices/index.htm>. Questions? Mark Stanger at (801) 536-4375
